DALLAS, Texas - iCode Schools, a leader in computer science education, is proud to announce its first franchise location in **West Frisco, Texas**, opening in November 2017.

iCode franchisees are positioned to make an impact in their local communities. *"I am pleased to welcome Harris Razak to the iCode family. This is a great location in an amazing city to be opening an iCode in. The iCode team looks forward to working with Harris to make this location a great success." Abid Abedi CEO.*

iCode has become a favorite afterschool computer science learning establishment in local communities. It has been our pleasure to help grow and empower students with a robust and comprehensive, proprietary curriculum. Whether a student is looking to enroll in our progressive and collaborative belt program or develop skills in a self-paced environment, iCode has a program for each preference.

With our turnkey systems, comprehensive training and marketing support, new franchises are set up for success very early on. This success is compounded by an emphasis on developing partnerships with local schools and the community. This has been proven to be a promising driver of brand recognition and long-term growth.

DALLAS, Texas - iCode Schools, a nationwide leader in computer science education, is proud to announce the expansion of its franchise opportunities in the **Dallas, Texas** area, opening in March 2018.

"The opening of this location is a pivotal moment for iCode as a company. Over the past few years, iCode has created a nationwide S.T.E.A.M. (science, technology, engineering, arts, and mathematics) learning franchise, where kids can be creative, work as a team, and develop technical learning skills in our advance belt system." Abid Abedi CEO.

DALLAS, Texas - iCode Schools, a nationwide leader in computer science education, is proud to announce the expansion of its franchise opportunities in the McKinney, Texas area, opening in May 2018.

"I am excited to welcome Kushangi to the iCode family. I think creating an environment that is conducive to learning is important. iCode with its proprietary curriculum along with all the equipment needed such as macs, drones, raspberry pie, EV3 and LEGO in a technically savvy environment goes a long way in providing children an ability to learn skills that are critical in the world we live in." Abid Abedi CEO.

Our iCode franchisees not only have the opportunity to make an impact in their local communities but they are setup for success very early on, with our turnkey systems and comprehensive training and support.

Another benefit our franchisees see is from our multiple partnerships within many school districts around the country. iCode has become a favorite afterschool learning center by many parents and students. It has been our pleasure to help grow and empower those in our community with our proprietary curriculum. Whether a student is looking to enroll in martial arts style progress-based belt program or has the desire to develop their skills in a self-paced environment, iCode has thousands of hours of curriculum built for all ages and levels.

DALLAS, Texas - iCode Schools, a nationwide leader in computer science education, is proud to announce the expansion of its franchise opportunities in the Southlake, Texas area, opening in June of 2019.

"I am pleased on welcome Kashif and Saniya to the iCode family. With most children dreading to go to an afterschool program that teaches them knowledge, iCode is offering an alternative in an environment that is radically different to any afterschool program. iCode has honed the art of teaching children knowledge that is critical yet in an environment that the children think they are having a blast." *Abid Abedi CEO.*

Our iCode franchisees not only have the opportunity to make an impact in their local communities but they are setup for success very early on, with our turnkey systems and comprehensive training and support.
